

- The Dredger's Note-book.—The Dredging Committee of the British Association.—Dredging on the Coast of Britain.—Dredging abroad.—History of the Progress of Knowledge of the Abyssal Fauna. *Page* 236
- APPENDIX A.—One of the Dredging Papers issued by the British Association Committee, filled up by Mr. MacAndrew *Page* 281

CHAPTER VII.

DEEP-SEA TEMPERATURES.

- Ocean Currents and their general Effects on Climate.—Determination of Surface Temperatures.—Deep-sea Thermometers.—The ordinary Self-registering Thermometer on Six's principle.—The Miller-Casella modification.—The Temperature Observations taken during the Three Cruises of H.M.S. 'Porcupine' in the year 1869, etc. *Page* 284
- APPENDIX A.—Surface Temperatures observed on board H.M.S. 'Porcupine' during the Summers of 1869 and 1870 *Page* 329
- APPENDIX B.—Temperature of the Sea at different Depths near the Eastern Margin of the North Atlantic Basin, as ascertained by Serial and by Bottom Soundings *Page* 352
- APPENDIX C.—Comparative Rates of Reduction of Temperature with Increase of Depth at Three Stations in different Latitudes, all of them on the Eastern Margin of the Atlantic Basin *Page* 353
- APPENDIX D.—Temperature of the Sea at different Depths in the Warm and Cold Areas lying between the North of Scotland, the Shetland Islands, and the Fjæroe Islands; as ascertained by Serial and by Bottom Soundings *Page* 354
- APPENDIX E.—Intermediate Bottom Temperatures showing the Intermixture of Warm and Cold Currents on the Borders of the Warm and Cold Areas *Page* 355

CHAPTER VIII.

THE GULF-STREAM.

- The Range of the 'Porcupine' Temperature Observations.—Low Temperatures universal at great Depths.—The Difficulty of investigating Ocean Currents.—The Doctrine of a general Oceanic Circulation advocated by Captain Maury and by Dr. Carpenter.—Opinion expressed by Sir John Herschel.—The Origin and Extension of the Gulf-stream.—The Views of Captain Maury; of Professor Buff; of Dr. Carpenter.—The Gulf-stream off the Coast of North America.—Professor Bache's 'Sections.'—The Gulf-stream traced by the Surface Temperatures of the North Atlantic.—Mr. Findlay's Views.—Dr. Petermann's Temperature Charts.—Sources of
