eventually anchoring in a beautiful landlocked bay. On landing, the woods were found so thick and tangled that it was hardly possible to penetrate into them for any distance; so the sportsmen had to be content at getting a stray shot from the beach, or scrambling over some steep banks close to where some cataracts came rushing down the mountain-sides, from which could be seen masses of ice extending a considerable distance, exhibiting deep longitudinal and transverse crevasses, the fine blue colouring of which formed a great contrast with the dazzling purity of an extensive snow-field.

PORT CHURRUCA TO PORT FAMINE.

Jan. 13th.—We spent a second day at Churruca for an inland excursion, which was much enjoyed by the naturalists, in search of sport and specimens. This morning, being anxious to get on, we again got under weigh. On clearing the harbour, we found a very strong breeze in our favour, and under steam and sail rapidly passed the land, which was covered with thick haze. As the day advanced, it cleared, and massive glaciers could be seen extending almost to the water's edge. Proceeding, we passed the Cordova Peninsula, and through Crooked and English Reaches; the coast appeared to be high, rugged, and seemingly continuous, but on nearing it was seen to be made up of numbers of small islands, the sea intersecting the land in every direction,
