

Names.	Distribution in the Group.			General Distribution.
	Tristan da Cunha.	Nightingale.	Inaccessible.	
<i>Scirpus oliveri</i>	×	Endemic.
<i>Carex insularis</i> . . .	×	...	×	Endemic.
<i>Carex thouarsii</i> . . .	×	×	...	Endemic.
<i>Uncinia brevicaulis</i> . . .	×	Amsterdam Island.
<i>Spartina arundinacea</i> . . .	×	×	×	Amsterdam and St Paul Islands.
<i>Agrostis ramulosa</i> . . .	×	Endemic.
<i>Agrostis media</i> . . .	×	Endemic.
<i>Lycopodium diaphanum</i> . . .	×	Endemic.
<i>Lycopodium magellanicum</i> . . .	×	South temperate zone.
<i>Lycopodium saururus</i> . . .	×	×	...	Widely diffused.
<i>Hymenophyllum æruginosum</i> . . .	×	Endemic.
<i>Trichomanes tenerum</i> . . .	×	Endemic.
<i>Adiantum æthiopicum</i> . . .	×	...	×	Widely diffused.
<i>Pteris incisa</i> . . .	×	×	×	Widely diffused.
<i>Lomaria alpina</i> . . .	×	South temperate zone, except South Africa.
<i>Lomaria boryana</i> . . .	×	West Indies, South America, Tropical and South Africa, Mascarene Islands, and Madagascar.
<i>Blechnum australe</i> . . .	×	...	×	South Africa, St Paul Island, Bourbon, and Madagascar, S. America.
<i>Asplenium obtusatum</i> . . .	×	×	×	South America; Australia; New Zealand; Polynesia.
<i>Asplenium lunulatum</i> . . .	×	×	×	Widely diffused.
<i>Asplenium monanthemum</i> . . .	×	America; Canaries; Africa.
<i>Asplenium medium</i> . . .	×	Endemic.
<i>Nephrodium aquilinum</i> . . .	×	×	×	Amsterdam Island (Fournier).
<i>Nephrodium tomentosum</i> . . .	×	Mascarene Islands and Madagascar.
<i>Aspidium coriaceum</i> ¹ . . .	×	Widely diffused.
<i>Polypodium punctatum</i> . . .	×	Widely diffused.
<i>Polypodium australe</i> . . .	×	South temperate zone, except South Africa.
<i>Gymnogramme cheilanthoides</i> . . .	×	Endemic.
<i>Vittaria stricta</i> ² . . .	×	×	×	Endemic.
<i>Acrostichum conforme</i> . . .	×	Generally diffused in warm countries.
<i>Acrostichum hybridum</i> . . .	×	South America; Africa; Mascarene Islands.
<i>Acrostichum spathulatum</i> . . .	×	Tropical America, South Africa, Ceylon, and Mascarene Islands.
<i>Acrostichum succisæfolium</i> . . .	×	×	×	Amsterdam Island; Mauritius (Thouars).
<i>Ophioglossum vulgatum</i> . . .	×	Generally diffused.

The fifty-five species in the foregoing table consist of twenty-nine flowering plants and twenty-six ferns and lycopods: most unusual proportions, and probably not repeated in any other part of the globe. Out of the twenty-nine flowering plants sixteen are endemic: three, *Lagenophora*, *Chevreulia*, and *Empetrum*, are South American, and not

¹ A very small form.

² Scarcely specifically different from the widely spread *Vittaria lineata*.
