

## GLOSSARY.

A. ACTINOSTOMA.	MOUTH.	MUND.
<i>a</i> <i>Osculum.</i>	<i>Central aperture.</i>	<i>Osculum.</i>
<p>Mouth opening of the Medusæ, derived from the primitive mouth (the archistome or blastopore of the gastrula); its margin forms the bounding line between the inner and outer germinal layers (endoderm and ectoderm); the inner (axial) surface of the œsophagus is covered with endoderm; the outer (abaxial) with ectoderm.</p>		
<i>aa</i> Actinostoma, apertura oris.	Mouth aperture, oral opening.	Mundöffnung.
<i>ab</i> Brachia oralia.	Oral arms.	Mundarme (perradial).
<i>ac</i> Columnæ buccales.	Buccal columns.	Mundsäulen (interradial).
<i>ad</i> Alæ oris adradiales.	Adradial oral wings.	Mundflügel (adradial).
<i>ae</i> Fissuræ buccales.	Buccal clefts.	Schlundspalten.
<i>af</i> Filamenta oralia (barbulæ).	Oral filaments.	Mundfäden.
<i>ag</i> Glandulæ orales.	Oral glands.	Munddrüsen.
<i>ah</i> Stomodiscus (discus oralis).	Oral plate, brachiferous plate.	Mundscheibe, Armscheibe.
<i>ai</i> Tæniola oralia.	Oral tæniola.	Mundleisten (interradial).
<i>ak</i> Costæ orales.	Buccal ribs.	Mundkanten (perradial).
<i>al</i> Lobi orales.	Oral lobes.	Mundlappen (perradial).
<i>am</i> Margo oralis.	Margin of the mouth.	Mundrand.
<i>an</i> Crispæ orales suctorix.	Sucking frills (of the Rhizostomæ).	Saugkrausen (der Rhizostomen).
<i>ao</i> Oscula suctoria.	Sucking pores (of the Rhizostomæ).	Saugmündchen (der Rhizostomen).
<i>ap</i> Pilastri brachiales.	Oral pillars.	Mundpfeiler (perradial).
<i>aq</i> Catablemata oralia.	Oral curtains.	Mundgardinen (perradial).
<i>ar</i> Sulci orales.	Oral grooves.	Mundrinnen.
<i>as</i> Stomostaurus (crux oralis).	Perradial oral cross.	Mundkreuz (perradial).
<i>at</i> Tubus oralis.	Œsophagus.	Mundrohr.
<i>au</i> Annulus oralis.	Oral ring (cartilaginous).	Mundring (knorpelig).
<i>aw</i> Labia oralia.	Lips (interradial).	Lippenwülste (interradial).
<i>ax</i> Axis oralis.	Central cavity of the mouth.	Mundaxenraum.
<i>ay</i> Styli orales.	Oral styles.	Mundgriffel.
<i>az</i> Digitella oralia.	Oral tentacles.	Mundtentakeln.

B. BURSÆ.	POUCHES.	TASCHEN.
<i>b</i> <i>Bursæ gastrocanales.</i>	<i>Gymiferous pouches.</i>	<i>Gefüßtaschen.</i>

Broad, flat, pouch-shaped hollow spaces of the gastrovascular system, lined with endoderm; partly direct radial diverticula of the central gastral cavity, partly peripheric expansions of different parts.
