

PLATE XXXVIIA.

The Lettering is the same in all the Figures.

- b. Cuticle.
- c. Hypoderm.
- d. Circular muscular coat.
- e. Dorsal longitudinal muscles.
- f. Ventral longitudinal muscles.
- g. Oblique muscles.
- j. Alimentary canal.

- k. Tufts of spines and bristles.
- n. Nerve cords.
- r. Reproductive organs.
- v. Ventral channel.
- vs. Ventral blood-vessel.
- x. Base of foot.

Fig. 1. Transverse section of the body-wall of <i>Trophonia wyvillei</i> in the ventral median line. Two of the long papillæ are covered with Diatom ooze,	× 90.
Fig. 2. Nerve-area of <i>Nicomache capensis</i> in transverse section, with the united insertions of the oblique in the middle line superiorly. v, section of loops of ventral vessels,	× 90.
Fig. 3. Transverse section of the body-wall of <i>Praxilla köllikeri</i> ,	× 55.
Fig. 4. Transverse section of the anterior third of <i>Praxilla assimilis</i> ,	× 55.
Fig. 5. Nerve-area of <i>Praxilla abyssorum</i> ,	× 138.
Fig. 6. Transverse section of the anterior third of the body-wall of <i>Phyllocomus croceus</i> , Grube,	× 20.
Fig. 7. Transverse section of the posterior region of <i>Loimia savignyii</i> ,	× 40.
Fig. 8. Section of the ventral margin in the anterior third of <i>Praxilla köllikeri</i> , in which the parts have been stretched so as to demonstrate the neural canal,	× 55.
