

PLATE IX.

	PAGE
Fig. 1. <i>Scalaria tortilis</i> , n. sp.	139
a. The natural size.	
b. The shell, enlarged.	
	c. The sculpture, magnified 25 diameters.
Fig. 2. <i>Scalaria acus</i> , n. sp.	140
a. The natural size.	
b. The apex, magnified 50 diameters.	
	c. The shell, enlarged.
Fig. 3. <i>Scalaria (Cirsotrema) dentiscalpium</i> , n. sp.	143
a. The natural size.	
b. The shell, enlarged.	
	c. The apex, magnified 40 diameters.
Fig. 4. <i>Scalaria funiculata</i> , n. sp.	141
a. The natural size.	
b. The sculpture, enlarged 40 diameters.	
	c. The shell, enlarged.
Fig. 5. <i>Scalaria philtata</i> , n. sp.	142
a. The natural size.	
b. The shell, enlarged.	
	c. The sculpture, magnified 35 diameters.
Fig. 6. <i>Scalaria vermetiformis</i> , n. sp.	142
a. The natural size.	
b. The apex, magnified 40 diameters.	
	c. The shell, enlarged.
Fig. 7. <i>Scalaria (Acirsa) pyrrhias</i> , n. sp.	145
a. The natural size.	
b. The apex, magnified 30 diameters.	
	c. The shell, enlarged.
Fig. 8. <i>Crossea striata</i> , n. sp.	145
a. The natural size.	
b. The shell, enlarged.	
	c. The apex and sculpture of the shell, magnified 50 diameters.
