

	Depth in Fathoms.	Occurrence in other Zones.
<b>SOLASTERIDÆ.</b>		
<b>SOLASTERINÆ.</b>		
<i>Crossaster papposus</i> . . . . .	384	Also Abyssal
<i>Lophaster furcifer</i> . . . . .	384	Also Abyssal
<b>ECHINASTERIDÆ.</b>		
<b>ECHINASTERINÆ.</b>		
<i>Cribrella oculata</i> . . . . .	458	Also Littoral.
<b>ASTERIIDÆ.</b>		
<i>Asterias (Leptasterias) mülleri</i> . . . . .	312	Also Littoral.
<b>BRISINGIDÆ.</b>		
<i>Odinia pandina</i> . . . . .	440	.....
<i>Brisinga endecacnemus</i> . . . . .	469	Also Abyssal
<i>Brisinga coronata</i> . . . . .	458	Also Abyssal.

## (3.) ABYSSAL ZONE.

Species found in depths greater than 500 fathoms.

	At or greater than						Greatest Depth recorded.	Occurrence in other Zones.
	500	750	1000	1500	2000	2500		
<b>ARCHASTERIDÆ.</b>								
<b>PLUTONASTERINÆ.</b>
