| Subfamily CTENODISCOINÆ . . . . .                               | 170  |
| Genus <i>Ctenodiscus</i> , Müller and Troschel . . . . .        | 170  |
| <i>Ctenodiscus corniculatus</i> (Linck), Perrier . . . . .      | 171  |
| — <i>australis</i> , Lütken . . . . .                           | 172  |
| — <i>procurator</i> , n. sp. . . . .                            | 173  |
| Family ASTROPECTINIDÆ . . . . .                                 | 174  |
| Subfamily ASTROPECTININÆ . . . . .                              | 175  |
| Genus <i>Craspidaster</i> , n. gen. . . . .                     | 175  |
| <i>Craspidaster hesperus</i> , Müller and Troschel, sp. . . . . | 177  |
| Genus <i>Leptoptychaster</i> , Smith . . . . .                  | 182  |
| <i>Leptoptychaster kerguelenensis</i> , Smith . . . . .         | 184  |
| — <i>arcticus</i> , Sars, sp. . . . .                           | 189  |
| — <i>arcticus</i> , var. <i>elongata</i> , nov. . . . .         | 189  |
| — <i>antarcticus</i> , n. sp. . . . .                           | 190  |
| Genus <i>Moiraster</i> , n. gen. . . . .                        | 192  |
| <i>Moiraster magnificus</i> , Bell, sp. . . . .                 | 193  |
| Genus <i>Astropecten</i> , Linck . . . . .                      | 193  |
| <i>Astropecten brasiliensis</i> , Müller and Troschel . . . . . | 198  |
| — <i>brevispinus</i> , Sladen . . . . .                         | 198  |
| — <i>polyacanthus</i> , Müller and Troschel . . . . .           | 201  |
| — <i>pectinatus</i> , Sladen . . . . .                          | 202  |
| — <i>acanthifer</i> , Sladen . . . . .                          | 203  |
| — <i>japonicus</i> , Müller and Troschel . . . . .              | 205  |
| — <i>imbellis</i> , Sladen . . . . .                            | 206  |
| — <i>hermatophilus</i> , Sladen . . . . .                       | 207  |
| — <i>irregularis</i> , Linck . . . . .                          | 209  |
| — <i>pontoporaus</i> , Sladen . . . . .                         | 210  |
| — <i>zebra</i> , Sladen . . . . .                               | 212  |
| — <i>zebra</i> , var. <i>rosea</i> , Sladen . . . . .           | 214  |
| — <i>velitaris</i> , von Martens . . . . .                      | 214  |
| — <i>granulatus</i> , Müller and Troschel . . . . .             | 215  |
| — <i>monacanthus</i> , Sladen . . . . .                         | 216  |
| — <i>cingulatus</i> , Sladen . . . . .                          | 218  |
| — <i>mesactus</i> , Sladen . . . . .                            | 219  |
| Genus <i>Psilaster</i> , Sladen . . . . .                       | 221  |
| <i>Psilaster andromeda</i> , Müller and Troschel, sp. . . . .   | 224  |
| — <i>acuminatus</i> , n. sp. . . . .                            | 225  |
| — <i>cassiope</i> , n. sp. . . . .                              | 228  |
| — <i>gracilis</i> , n. sp. . . . .                              | 230  |
| — <i>patagiatus</i> , n. sp. . . . .                            | 232  |
| Genus <i>Phozaster</i> , Sladen . . . . .                       | 234  |
| <i>Phozaster pumilus</i> , n. sp. . . . .                       | 236  |
| Genus <i>Bathylniaster</i> , Danielssen and Koren . . . . .     | 239  |
| <i>Bathylniaster loripes</i> , n. sp. . . . .                   | 240  |
| — <i>loripes</i> , var. <i>obesa</i> , nov. . . . .             | 242  |
| — <i>vexillifer</i> , Wyville Thomson, sp. . . . .              | 243  |
| Subfamily LUIDINÆ . . . . .                                     | 244  |
| Genus <i>Luidia</i> , Forbes . . . . .                          | 244  |
| <i>Luidia aspera</i> , n. sp. . . . .                           | 246  |
