

	PAGE
5. Regular ocellar projecting organs,	307
a. <i>Distribution</i> ,	307
b. <i>Structure</i> ,	307
c. <i>Innervation</i> ,	308
d. <i>Function</i> ,	308
e. <i>Development</i> ,	308
f. <i>Doubtful structures in the skin</i> ,	308
6. Regular ocellar covered organs,	309
a. <i>Distribution</i> ,	309
b. <i>Structure</i> ,	309
a. <i>General</i> ,	309
β. <i>Histology</i> ,	310
(1) <i>The scales</i> ,	310
(2) <i>The pigmented membranes</i> ,	310
(3) <i>The light-reflecting membrane</i> ,	310
(4) <i>The phosphorescent organ</i> ,	310
(5) <i>The slime-canal and its branches</i> ,	311
(6) <i>The tissue overlying the slime-canal</i> ,	311
(7) <i>The meandriform gland-tubes</i> ,	312
c. <i>Innervation</i> ,	312
d. <i>Function</i> ,	312
e. <i>Development</i> ,	313
B. IRREGULAR GLANDULAR ORGANS,	313
7. Glandular organs of irregular position,	313
a. <i>Distribution</i> ,	313
b. <i>Structure</i> ,	314
c. <i>Function</i> ,	314
8. Glandular organ on the lower jaw,	314
a. <i>Distribution</i> ,	314
b. <i>Structure</i> ,	314
c. <i>Function</i> ,	315
9. Differentiated barbels and fin-rays,	315
a. <i>Distribution</i> ,	315
b. <i>Structure</i> ,	315
c. <i>Function</i> ,	315
10. Glandular organs under the gill-covers,	315
a. <i>Distribution</i> ,	315
b. <i>Structure</i> ,	316
c. <i>Function</i> ,	316
11. Suborbital glandular organs without reflector,	316
a. <i>Distribution</i> ,	316
b. <i>Structure</i> ,	316
(1) <i>In Astronesthes niger</i> ,	316
(2) <i>In Opostomias micripnus</i> ,	317
c. <i>Innervation</i> ,	319
d. <i>Function</i> ,	319
e. <i>Development</i> ,	319
