

	PAGE
Fig. 1. <i>Suberites senilis</i> , large tylostylus; × 66,	209
Fig. 1a. Smaller tylostylus; × 190.	
Fig. 1b. Part of large tylostylus; × 190.	
Fig. 2. <i>Suberites durissimus</i> , large subtylostylus; × 66,	204
Figs. 2a, 2b, 2c. Smaller tylostyli; × 190.	
Figs. 2d, 2e. Bases of larger spicules; × 190.	
Fig. 3. <i>Suberites perfectus</i> , large tylostylus; × 66,	201
Fig. 3a. Smaller tylostylus; × 190.	
Fig. 3b. Base of larger tylostylus; × 190.	
Figs. 4, 4a. <i>Suberites mollis</i> , large tylostyli (fig. 4a, a portion only); × 66,	205
Fig. 4b. Base of large tylostylus; × 190.	
Fig. 4c. Smaller tylostylus; × 190.	
Fig. 5. <i>Suberites caminatus</i> , large tylostylus; × 66,	198
Figs. 5a, 5b. Smaller tylostyli; × 190.	
Figs. 5c, 5d. Bases of large tylostyli; × 190.	
Fig. 6. <i>Hymeniacidon</i> (?) <i>hyalina</i> , large tylostylus; × 66,	168
Fig. 6a. Base of large tylostylus; × 190.	
Fig. 6b. Smaller tylostylus; × 190.	
Fig. 7. <i>Suberites antarcticus</i> , large tylostylus; × 66,	202
Figs. 7a, 7b. Bases of large tylostyli; × 190.	
Figs. 7c, 7d. Smaller tylostyli; × 190.	
Fig. 8. <i>Latrunculia bocagei</i> , stylus; × 190,	238
Fig. 8a. Discaster; × 280.	
Fig. 9. <i>Latrunculia apicalis</i> (Station 320), stylus; × 190,	235
Fig. 9a. Discaster; × 280.	
Fig. 9b. Large whorl of discaster, full view; × 280.	
Fig. 9c. Discaster (Kerguelen); × 280.	
Fig. 10. <i>Latrunculia brevis</i> , stylus; × 190,	237
Fig. 10a. Discaster; × 280.	
Fig. 11. <i>Spirastrella papillosa</i> , larger tylostylus; × 190,	233
Figs. 11a, 11b. Smaller tylostylus and subtylostylus, from surface; × 190.	
Figs. 11c-11g. Spined spirulæ; × 500.	
Fig. 12. <i>Spirastrella decumbens</i> , tylostylus; × 190,	229
Figs. 12a-12g. Spined spirulæ; × 500.	
Fig. 13. <i>Spirastrella solida</i> , tylostylus; × 190,	231
Figs. 13a-13e. Spined spirulæ; × 500.	
Figs. 14, 14a, 14b. <i>Spirastrella massa</i> , subtylostyli and stylus; × 190,	230
Figs. 14c-14k. Spined spirulæ; × 500.	
Fig. 15. <i>Suberites axiatus</i> , large tylostylus; × 66,	203
Fig. 15a. Smaller tylostylus; × 190.	
Figs. 15b, 15c. Bases of two of the larger tylostyli; × 190.
