

| | |
|---|--|
| <i>Antedon proluxa</i> , II.–VII. | <i>Actinometra blakei</i> , IV., V. |
| <i>quadrata</i> , II.–VI. | <i>discoidea</i> , IV. |
| <i>rosacea</i> , I., II. | <i>meridionalis</i> , I.–V. |
| <i>spinifera</i> , IV., V. | <i>pulchella</i> , IV.–VII. |
| <i>tenella</i> , IV.–VII. | <i>Promachocrinus kerguelensis</i> , II.–IV. |
| Totals.— <i>Antedon</i> , 15 species; <i>Actinometra</i> , 4 species. | |

TABLE IV.—Species found at depths between 100 and 200 fathoms.

| | |
|---|--|
| <i>Antedon angustiradia</i> . | <i>Antedon patula</i> . |
| <i>australis</i> . | <i>phalangium</i> , II.–V. |
| <i>barentsi</i> . | <i>pourtalèsi</i> , V. |
| <i>carinata</i> , I.–V. | <i>proluxe</i> , II.–VII. |
| <i>compressa</i> , III. | <i>pusilla</i> . |
| <i>defecta</i> , III.–V. | <i>quadrata</i> , II.–VI. |
| <i>discoidea</i> . | <i>quinquecostata</i> . |
| <i>duplex</i> , III.–V. | <i>robusta</i> . |
| <i>eschricti</i> , I.–VII. | <i>rhomboidea</i> . |
| <i>exigua</i> . | <i>spinifera</i> , III.–V. |
| <i>flexilis</i> . | <i>tenella</i> , III.–VII. |
| <i>granulifera</i> . | <i>tenuicirra</i> . |
| <i>hageni</i> , III.–V. | <i>Actinometra blakei</i> , III.–V. |
| <i>hirsuta</i> . | <i>discoidea</i> , III. |
| <i>longicirra</i> . | <i>meridionalis</i> , I.–V. |
| <i>manca</i> . | <i>pulchella</i> , III.–VII. |
| <i>parvipinna</i> . | <i>Promachocrinus kerguelensis</i> , II., III. |
| Totals.— <i>Antedon</i> , 29 species; <i>Actinometra</i> , 4 species. | |

TABLE V.—Species found at depths between 200 and 350 fathoms.

| | |
|---------------------------------|-------------------------------|
| <i>Antedon brevipinna</i> . | <i>Antedon latipinna</i> . |
| <i>carinata</i> , I.–IV. | <i>occulta</i> . ² |
| <i>defecta</i> , III., IV. | <i>phalangium</i> , II.–IV. |
| <i>duplex</i> , III., IV. | <i>pourtalèsi</i> , IV. |
| <i>eschricti</i> , I.–VII. | <i>quadrata</i> , II.–VI. |
| <i>hageni</i> , III., IV. | <i>similis</i> . ² |
| <i>inæqualis</i> ¹ ? | <i>spinifera</i> , III., IV. |
| <i>incisa</i> ¹ ? | <i>tenella</i> , III.–VII. |

¹ Most probably obtained from 610 fathoms at Station 174.² Most probably obtained from 210 or 255 fathoms at Station 174.
