

PLATE IV.

			Diam.	Page
	Fig. 1. ANTEDON QUINDUPLICAVA, n. sp.,	. ×	8	
Fig. 1.	a. The isolated centro-dorsal, side view,		263
	b. Dorsal aspect of the same,		262
	c. Dorsal aspect of the radial pentagon, after removal of the rosette,		9
	d. Ventral aspect of the centro-dorsal,		9
	Fig. 2. ANTEDON DISCIFORMIS, n. sp.,	. ×	8	
Fig. 2.	a. The calyx from the side,		13
	b. The calyx from above,		229
	c. Dorsal aspect of the radial pentagon,		9
	d. Ventral aspect of the centro-dorsal,		9
	Fig. 3. ANTEDON MACRONEMA, Müll., sp.,	. ×	6	
Fig. 3.	a. The calyx from the side,		25
	b. The calyx from above,		24
	c. Dorsal aspect of the radial pentagon and basal star,		6
	d. Ventral aspect of the centro-dorsal,		10
	Fig. 4. ACTINOMETRA MERIDIONALIS, Pourt., sp.,			
Fig. 4.	a. The calyx from the side, ×	6	26
	b. (α) Ventral and (β) dorsal aspects of an isolated basal, ×	15	22
	c. The calyx from above, ×	6	26
	Fig. 5. ACTINOMETRA PULCHELLA, Pourt., sp.			
Fig. 5.	a. (α) Ventral and (β) dorsal aspects of an isolated basal, ×	8	22
	b. Dorsal aspect of an isolated radial with one basal attached, ×	6	22
	c. Side view of the radial pentagon with the basals attached, ×	6	22
	Fig. 6. ACTINOMETRA PAUCICIRRA, Bell.			
Fig. 6.	a. Ventral aspect of the young centro-dorsal, ×	6	10
	b. (α) Ventral and (β) dorsal aspects of an isolated basal, ×	15	22
