¹ *Pleonexes* is probably a synonym of *Sunamphitöe*, which White spells as *Synamphithoe*, and if that genus be retained as distinct from *Amphithoë*, *Pleonexes* had a kind of claim to priority, being placed in front of *Sunamphitoe* both in 1856 when the two genera are first mentioned, and in 1857 when they are first defined.
