<sup>1</sup> On p. 573, line 1, this form is suggested as the proper one in case the Dexaminæ are distinguished as a family from the Atylidæ.

<sup>2</sup> On p. 559, line 25, for Dulichidæ read Dulichiidæ.

<sup>3</sup> On p. 1182, line 24, for Family DULICHIIDÆ read Family DULICHIDÆ.

<sup>4</sup> In the Errata to Boeck's work the remark is made, "Instead of Divisio *Gammaridæ* read *Gammarida*."

<sup>5</sup> The earliest use of this term embraced the Amphipoda at large.

<sup>6</sup> In the Errata to Boeck's work it says "Instead of Divisio *Hyperidæ* read *Hyperida*."
