

<i>Cyllias</i> , <sup>1</sup> Bovallius, 1887. The name was probably chosen to indicate an affinity with the neighbouring genus <i>Cylopus</i> ,		588
<b>Cylopus</b> , Dana, 1852. κυλλός, crooked, maimed, πούς, foot. "Feet of seventh pair nearly rudimentary,"	{ 268, 452, 487, 580, 588, 593 1296	
<i>Cymadusa</i> , Savigny, 1816. κύμα, a wave, δύο, I enter. (= <i>Amphithoë</i> , Leach),		93, 120, 123
<i>Cymothoa</i> , J. C. Fabricius, 1793. Cymothoe, one of the Oceanides, see Hesiod, Theogonia, 245. An Isopod genus in which three species of Amphipoda were at one time included,		59, 85, 1618
<b>Cyphocaris</b> , Lütken and Boeck, 1870. "κύφος, hump, κάρα, head,"		393, 398, 580, 656
<i>Cypridoidea</i> , alteration of <i>Cyproidea</i> , Haswell, to suit the derivation, see Scudder, Nom. Zool., p. 366.		
<i>Cyproidea</i> , <sup>2</sup> Haswell, 1880. See <i>Cyproidia</i> ,		514, 581
<b>Cyproidia</b> , Haswell, 1880. From its likeness to <i>Cypris</i> , an Entomostracan genus,		441, 512, 513, 514, 539, 574
<b>Cyrtophium</b> , Dana, 1852. κυρτός, curved,	{ 257, 261, 265, 328, 349, 518, 521 563, 580, 581, 1651	
<i>Cysteosoma</i> , a variation in the spelling of <i>Cystisoma</i> , Guérin,		575
<b>Cystisoma</b> , Guérin, 1842. κύστις, a bladder, σῶμα, body (not to be confused with <i>Cystosoma</i> , Westwood, among the Hemiptera),	{ 196, 259, 452, 575, 1269, 1318	
<i>Cystosoma</i> , misspelling of <i>Cystisoma</i> , Guérin,		440, 444, 452, 471, 487, 580
<i>Dactylocera</i> , Latreille, 1829. δάκτυλος, finger, κέρα, horn. (= <i>Phrosina</i> , Risso),	{ 125, 137, 142, 143, 144, 170, 175 184, <sup>3</sup> 191, 259, 487	
<i>Dactylocerus</i> , a variation in the spelling of <i>Dactylocera</i> , Latreille. See Desmarest, 1825,		122
<i>Daira</i> , Milne-Edwards, 1830. Mythological name (Agassiz). Preoccupied,	{ 143, 170, 175, 184, 190, 258, 264 558, 580, 1336	
<b>Dairella</b> , Bovallius, 1887. Diminutive of <i>Daira</i> ,		589, 1269, 1342
<b>Dairilia</b> , Dana, 1852. Altered from <i>Daira</i> , Milne-Edwards,		264, 268, 337, 590, 1543
<i>Dairinia</i> , a misprint in Dana's work for <i>Dairilia</i> ,		264, 558, 580
<i>Danaia</i> , Spence Bate, 1857. "The genus is named after Professor Dana, to whom science is indebted for a valuable work on Crustacea." Preoccupied, <sup>4</sup>	{ 293, 328, 394, 570, 581, 582, 747	
<i>Darvinea</i> , Spence Bate, 1856. Described as <i>Darwinia</i> , 1857.		
<i>Darwinia</i> , Spence Bate, 1857. "This genus is named in compliment to the distinguished author of the Monograph on the Cirripedia." (= <i>Lafystius</i> , Krøyer),		294, 328, 581
<i>Dercothoe</i> , Dana, 1852. "The name of the genus, from δερκω, to look, alludes to the projection forward of the eyes on a prominence of the front margin on either side of the head,—a frequent, if not universal, characteristic of the species." (= <i>Erichthonius</i> , Milne-Edwards),	{ 258, 267, 268, 375, 580, 581	
<b>Dermophilus</b> , E. van Beneden and Bessels, 1870. δέρμα, skin, φίλος, attached to. Perhaps a synonym of <i>Lafystius</i> , Krøyer, 1842,		392, 464
<i>Desmophilus</i> , misspelling of <i>Dermophilus</i> ,		463
<b>Dexamine</b> , Leach, 1814. Δεξαμένη, a Nereid, see Homer, Iliad, xviii. 44,	{ 86, 89, 90, 122, 148, 170, 176 192, 229, 249, 258, 328, 379, 395 573, 581, 845	
<i>Deziocrella</i> , Haswell, 1885. δεξιός, ready, nimble, κέρα, horn, antenna, with a diminutive termination. (= <i>Platophium</i> , Dana),		566, 1184, 1651
Dinoa, Rafinesque, 1815,		88
Diphycola, A. Costa, 1862. <i>Diphya</i> , an Acaleph genus, colo, I inhabit,		340, 1348
<b>Dithyrus</b> , Dana, 1852. δίθυρος, with two doors. "Pedes 5ti 6tique articulo 1mo lati lamellati,"	{ 259, 269, 327, 490, 591, 1471	
<b>Dodecas</b> , Stebbing, 1883. δωδεκάς, a number of twelve. "Six pairs of feet attached to the pereion, the fourth segment having none,"		461, 547, 1232
<i>Dryope</i> , Spence Bate, 1862. Δρυόπη, a nymph. Preoccupied in 1830,		328, 336, 580, 1145
<b>Dryopoides</b> , Stebbing, 1888,		1145

<sup>1</sup> This genus was instituted doubtfully by Bovallius to receive the single species *Hyperia cuspidata*, Streets, but as the species in question belongs, I think, clearly to the genus *Paraphronima*, Claus, the name *Cyllias* will not be needed.

<sup>2</sup> On p. 514, l. 11, for *Cyproidia* read *Cyproidea*. The latter form is given in the *Annals and Magazine of Natural History* for January 1880, but precedence may perhaps be allowed to the form *Cyproidia*, which in the same year 1880 appears in the *Proc. Linn. Soc. N. S. W.*, since Mr. Haswell would have had the opportunity of correcting the press in Australia but not in England.

<sup>3</sup> For *Dactylocerus*, p. 184, line 6, read *Dactylocera*.

<sup>4</sup> In 1849 Milne-Edwards and J. Haime, *Comptes rendus*, t. xxix. p. 261, gave the name *Danaia* to a genus of fossil Corals; this name they spell *Danaia* in the general index to their Monograph of the British Fossil Corals, Palæont. Soc. vol. for 1854, published 1855. *Danaia*, Spence Bate, must therefore give way to the later *Cressa*, Boeck, with which a specimen of the type species, recently obtained and dissected, proves it to be certainly synonymous. Compare the earlier footnote, p. 747.
