<i>ochotensis</i> , Brandt, 1851,	245, 247

¹ See Brit. Mus. Catal. Amph. Crust., p. 369.

² "*Orchestia Bonelliana*, White, Cat. Crust. B. M. 1847," is given as a synonym of "*Allorchestes Pereiri*" in the Brit. Mus. Catal. Amph. Crust., p. 42, 1862, but I cannot find any such name in White's Catalogue.

³ This species is given as *Chilensis* in the index to Milne-Edwards' work, and that form has been adopted by Dana and Spence Bate.

⁴ "*Orchestia constructa* (young?), Costa," is given by mistake for *Orchestia constricta*, as a synonym of "*Orchestia Mediterranea*" in the Brit. Mus. Catal. Amph. Crust., p. 24, 1862.
