

LATIN SCIENTIFIC TERM.	ENGLISH TERM.	GERMAN TERM.
<i>pi</i> Infundibulum (pneumatochone).	Air-funnel of the float.	Lufttrichter der Schwimmblase.
<i>pk</i> Camerae concentricae pneu- matocystae.	Ring-chambers of the float (Dis- conectae).	Ring-Kammern der Luftflasche.
<i>pl</i> Foveola aurostylæ.	Basal dimple of the air-bell.	Basal-Grübchen der Luftflasche.
<i>pm</i> Musculi longitudinales.	Radial muscles of the float.	Längs-Muskeln der Schwimmblase.
<i>pn</i> Musculi transversi.	Circular muscles of the float.	Ring-Muskeln der Schwimmblase.
<i>po</i> Ostium apicale (stigma centrale).	Top-opening of the float.	Scheitel-Öffnung der Schwimmblase.
<i>pp</i> Pigmentum apicale (mitra ocel- laris).	Pigment-cap of the float.	Farben-Kappe des Luftsacks.
<i>pq</i> Bursae radiales pneumatophoræ.	Radial pouches of the float.	Radial-Taschen der Pericyst-Höhle.
<i>pr</i> Septa radialia.	Radial septa (between them).	Radial-septen.
<i>ps</i> Pneumatosaccus.	Air-sac.	Luftsack.
<i>pt</i> Tracheæ.	Air-tubules (Disconnectae).	Luftröhren.
<i>pu</i> Pneumatocodon (umbrella pneu- matica).	Pneumatic umbrella.	Luftschirm.
<i>pv</i> Villi hypocystales.	Funnel-villi (Cystonectae).	Trichter-Zotten des Luftsacks.
<i>pw</i> Tapetum endocystale.	Secondary exoderm of the float.	Luftflaschen-Tapete.
<i>px</i> Apex pneumatophoræ.	Top of the float.	Schwimmblasen-Spitze.
<i>py</i> Pylorus infundibuli.	Funnel-gate of the float.	Trichter-Pforte der Luftflasche.
<i>pz</i> Fulcrum (lamina fulcralis).	Supporting plate of the float.	Stützplatte der Schwimmblase.
<i>q</i> <i>Palpones (Hydrocystæ).</i>	<i>Tasters (Feelers).</i>	<i>Taster.</i>
<i>qa</i> Apex palponis.	Top of the taster.	Taster-Spitze.
<i>qb</i> Basis palponis.	Base of the taster.	Taster-Basis.
<i>qc</i> Cavum palponis.	Cavity of the taster.	Taster-Höhle.
<i>qd</i> Ocellus palponis.	Eye of the taster.	Taster-Auge.
<i>qp</i> Pedunculus palponis.	Pedicle of the taster.	Taster-Stiel.
<i>r</i> <i>Palpacula.</i>	<i>Feeling filaments.</i>	<i>Fühlfäden.</i>
<i>s</i> <i>Siphones (Polypites).</i>	<i>Suctorial-tubes.</i>	<i>Saugröhren.</i>
<i>sa</i> Siphon centralis (Disconectarum).	Central polypite.	Central-Siphon.
<i>sb</i> Basigaster.	Basal chamber of the polypite.	Grundmagen.
<i>sc</i> Cavum siphonale.	Cavity of the polypite.	Siphon-Höhle.
<i>sf</i> Fissuræ gastrales.	Openings of the radial canals.	Gastral-Ostien.
<i>sg</i> Bursae gastrales.	Pouches of the stomach.	Magentaschen.
<i>sh</i> Striæ hepaticæ.	Liver-ridges.	Leber-Streifen.
<i>si</i> Aster hepaticus (Disconectarum).	Liver-star.	Leber-Canal-Stern.
<i>sk</i> Valvula pylorica.	Pyloric valve.	Pylorus-Klappe.
<i>sl</i> Labia oralia.	Lips of the mouth.	Mund-Lippen.
<i>sm</i> Stomachus.	Stomach.	Magen.
<i>sn</i> Siphones secundarii.	Metasiphons.	Neben-Siphonen.
<i>so</i> Osculum.	Mouth.	Mund.
<i>sp</i> Pedunculus siphonalis.	Pedicle of the polypite.	Siphon-Stiel.
<i>sr</i> Proboscis.	Pharynx.	Rüssel.
<i>ss</i> Discus suctorius.	Suctorial disc of the mouth.	Saugscheibe.
<i>st</i> Tabula gastrobasalis (Disconec- tarum).	Gastrobasal plate (between centra- denia and central siphon).	Magengrund-Platte.
