Surface Organisms.—The following species are recorded from the surface at this Station :—

ORGANISMS FROM
SURFACE-NETS.

PTEROPODA (Pelseneer, Zool. pt. 65).

<i>Limacina inflata</i> (d'Orbigny).	<i>Clio (Hyaloclylix) striata</i> (Rang).

" <i>trochiformis</i> (d'Orbigny).	
" <i>bulimoides</i> (d'Orbigny).	<i>Cavolinia quadridentata</i> (Lesueur).

The surface tow-nets yielded relatively very few things, including Copepods and *Velellæ*, while the tow-net at the weights was wound round the line and almost empty, the tow-nets at the dredge containing a few Foraminifera and Pteropod shells similar to those in the sounding.
