

36. *Carpophaga zoëæ*, Less.

*Columba zoëæ*, Less., Voy. Coq. Zool. Atlas, pl. xxxix. (1826), vol. i. p. 705, part 2 (1828), Dorey (type examined).

*Carpophaga zoëæ*, Salvad., Ann. Mus. Civ. Gen., vol. ix. p. 201, sp. 47 (1876); Proc. Zool. Soc., 1878, p. 99.

[No. 236. Wanumbai. Male. Eyes white; legs red; beak black. Stomach contained seeds. Shot at Wanumbai.]

37. *Macropygia doreya*, Bp.

*Macropygia doreya*, Bp., Consp., vol. ii. p. 57 (1854), New Guinea (type examined); Salvad., Ann. Civ. Gen., vol. ix. p. 204, sp. 65 (1876); Proc. Zool. Soc., 1878, p. 99.

*Macropygia phasianella*, part., G. R. Gr. (nec Tomm.), Proc. Zool. Soc., 1858, p. 187, Arrou Islands only; Wall., Ibis, 1865, p. 389, sp. 81 (partim).

[No. 254. Wokan. Female.]

38. *Megapodius duperreyi*, Less. & Garn.

*Megapodius duperreyi*, Less. and Garn., Bull. Sc. Nat., vol. viii. p. 113 (1826), Dorey (type examined); Less., Voy. Coq. Zool., vol. i. pp. 700, 703, part. 2, pl. xxxvi. (1826-28); Salvad., Proc. Zool. Soc., 1878, p. 100.

*Megapode reinwardt*, Temm., Pl. Col., liv. 37, genre *Megapode* (1823).

*Megapodius rubripes*, Temm. Pl. Col. 411 (25th October 1826<sup>1</sup>), Celebes! Amboyna!

*Megapodius reinwardtii* (sic), Temm. apud Wagl., Syst. Av. Gen. *Megapodius*, note (1827), descr. nulla.

*Megapodius reinwardtii*, Wagl., Syst. Av. Gen. *Megapodius*, Additamenta, sp. 4 (1827).

*Megapodius rubripes*, S. Müll., Verh. Land. on Volkenk. pp. 23, 109 (1839-44), Utanata.

*Megapodius*, sp., Wall. Ann. & Mag. Nat. Hist., (2) vol. xx. pp. 473, 477 (1857), Ki, Arrou.

[No. 230. Female. Eyes dull red; legs orange; bill horn-colour.]

A female (No. 230) from Wokan.

39. *Numenius uropygialis*, Gould.

*Numenius uropygialis*, Gould: Salvad., Proc. Zool. Soc., 1878, p. 100,

[No. 258. Wanumbai. Male.]

40. *Tringoides hypoleucus*, Linn.

*Tringoides hypoleucus*, Salvad., Proc. Zool. Soc., 1878, p. 100.

[No. 227. Dobbo. Female. Legs light green; bill dark green; eyes hazel. Stomach contained insects.]

<sup>1</sup> I doubt whether this date, given by Crotch (Ibis, 1868, p. 500), for the publication of the 69th livraison of Temminck's Planches Coloriées, is exact; my doubts rise from the fact that *Megapodius rubripes* is not mentioned by Wagler in his Systema Avium, published in 1827.
