

17. *Philemon buceroides*, Swainson.

Tropidorhynchus buceroides, Gould, B. of Austr., Suppl., pl. xlv. ; *id.* Handb. B. Austr., vol. i. p. 547 ; Forbes, Proc. Zool. Soc., 1878, p. 124.

One specimen from Cape York, agreeing with specimens in Mr Godman's collection. [No. 160, ♀. Leatherhead. Eyes dark red ; bill and skin about the head black. Stomach contained beetles and other insects.]

18. *Myzomela obscura*, Gould.

Myzomela obscura, Gould, B. of Austr., vol. iv., pl. lxxvii. ; *id.* Handb. B. Austr., vol. i. p. 559 ; Forbes, Proc. Zool. Soc., 1878, p. 125.

A single skin from Cape York. [No. 159, ♂. Eyes brown.]¹

19. *Dicæum hirundinaceum*, Shaw.

Dicæum hirundinaceum, Gould, B. of Austr., vol. ii., pl. xxxiv. ; *id.* Handb. B. Austr., vol. i. p. 581 ; Forbes, Proc. Zool. Soc., 1878, p. 125.

A single specimen in full plumage, from Cape York. [No. 149, ♂. Eyes black ; legs and bill black. Stomach contained green fruit.]

20. *Nectarinia frenata*, Müll.

Nectarinia australis, Gould, B. of Austr., Suppl., pl. xlv. ; *id.* Handb. B. Austr., vol. i. p. 584 ; Forbes, Proc. Zool. Soc., 1878, p. 125.

Three specimens from Cape York Island (two males in full plumage, and a female) of this Sunbird, which Mr Sclater has recently shown to be the *Nectarinia frenata* of Müller (see Proc. Zool. Soc., 1877, p. 104). [No. 153, ♂ ; 154, ♂ ; 155, ♀. Eyes brown ; legs and bill black. Stomach contained small insects.]

21. *Zosterops luteus*, Gould.

Zosterops luteus, Gould, B. of Austr., vol. iv., pl. lxxxiii. ; *id.* Handb. B. Austr., vol. i. p. 590 ; Forbes, Proc. Zool. Soc., 1878, p. 125.

One specimen from Booby Island [No. 197, ♀. Eyes brown ; feet and bill with a bluish tinge. Stomach had small seeds], which agrees with a specimen of this species collected by Macgillivray, kindly lent to me by Mr Gould for comparison.

¹ Mr Gould says " bright red."
