

PLATE IX.

Figures 1-10.—*Eilhardia schulzei*, n. gen. and sp.

		Diam.
Fig. 1.	Portion of a vertical section,	x 30
Fig. 2.	One half of an osculum (from within),	x 75
Fig. 3.	Portion of the sieve-like surface,	x 120
Fig. 4.	Two parenchymal triradiate spicules ; (b, embryonal),	x 100
Fig. 5. (a)	A triradiate spicule of the sieve-like surface,	x 50
	(b, c) Two triradiate spicules of the convex surface,	x 50
	(d) An oscular quadriradiate spicule,	x 50
Fig. 6.	Three oscular triradiate spicules,	x 200
Fig. 7.	Two slender acerate spicules of the convex surface,	x 100
Fig. 8.	Five stout acerate spicules of the convex surface (d, e, embryonal),	x 100
Fig. 9.	Two acerate spicules of the osculum,	x 100
Fig. 10.	Minute acerate spicules of the sieve-like surface,	x 300
