

PLATE III.

Figs. 1–12. *Platydoris eurychlamys*, Bergh.

- Fig. 1. *a*, Buccal ganglia; *b*, *b*, gastro-oesophageal ganglia. Cam. luc. $\times 55$ diam.
Fig. 2. *a*, Proximal; *b*, distal, olfactory, ganglion. Cam. luc. $\times 55$ diam.
Fig. 3. *a*, Oesophagus; *b*, stomach; *cc*, intestine; *d*, bile-duct; from beneath.
Fig. 4. *a*, Cleft at anterior end of duct of renal syrinx (*b*).
Fig. 5. Arborescent outgrowths of duct of renal syrinx. Cam. luc. $\times 100$ diam.
Fig. 6. Two large lateral teeth, from the side. Cam. luc. $\times 350$ diam.
Fig. 7. One of the smaller disks of the praeputium, from above. Cam. luc. $\times 350$ diam.
Fig. 8. Hooks of two of the larger disks, from the side. Cam. luc. $\times 350$ diam.
Fig. 9. Lower part of praeputium. Cam. luc. $\times 100$ diam.
Fig. 10. Villi from the surface of the ventricle of the heart (pathological). Cam. luc. $\times 100$ diam.
Fig. 11. *a*, Posterior; *b*, anterior part of the salivary gland.
Fig. 12. *a*, Hermaphrodite duct; *b*, its ampulla; *c*, constricted part of the same; *d*, female branch; *e*, male branch; *f*, prostate; *g*, thinner part of the vas deferens; *h*, thicker part; *ii*, penis; *k*, vestibular gland.

Fig. 13. *Discodoris morphaea*, Bergh.

- Fig. 13. *a*, Ampulla of the hermaphrodite duct; *b*, female branch; *c*, male branch; *d*, prostate; *e*, vas deferens; *f*, penis.

Figs. 14–20. *Ceratosoma cornigerum*, Adams.

- Fig. 14. Otocyst on the surface of cerebral ganglion (*a*). Cam. luc. $\times 350$ diam.
Fig. 15. Spicules from capsule of cerebral ganglion. Cam. luc. $\times 350$ diam.
Fig. 16. Hooks of the labial disk. Cam. luc. $\times 750$ diam.
Fig. 17. Part of the rhachis of the radula; *a*, median rhachidian thickening of cuticle; *b*, *b*, innermost lateral teeth (from the inner side). Cam. luc. $\times 750$ diam.
Fig. 18. Lateral tooth, from behind. Cam. luc. $\times 750$ diam.
Fig. 19. Two lateral teeth from the middle of a series, from the side. Cam. luc. $\times 750$ diam.
Fig. 20. Part of the rhachis; *aa*, *b*, *b*, as in fig. 17. Cam. luc. $\times 350$ diam.

Figs. 21–25. *Thordisa (?) clandestina*, Bergh.

- Fig. 21. Part of the rhachis of the radula, with the innermost teeth of two series. Cam. luc. $\times 350$ diam.
Fig. 22. Outermost portion of three series of teeth with 3–5 teeth; *a*, of the fourth; *b*, of the sixth complete row of the tongue. Cam. luc. $\times 350$ diam.
Fig. 23. Innermost teeth of two series, from the side. Cam. luc. $\times 750$ diam.
Fig. 24. A lateral tooth, from the side. Cam. luc. $\times 750$ diam.
Fig. 25. Outermost portion of two series of teeth, with 5 and 7 teeth; *a*, *a*, outermost teeth. Cam. luc. $\times 750$ diam.

Figs. 26–29. *Chromodoris striatella*, Bergh.

- Fig. 26. Elements of the labial plate. Cam. luc. $\times 750$ diam.
Fig. 27. Rhachis of the radula; *a*, median "pseudotooth"; *b*, *b*, first lateral; *c*, sixth lateral tooth (of left side). Cam. luc. $\times 750$ diam.
Fig. 28. Second lateral tooth, viewed obliquely from inside. Cam. luc. $\times 750$ diam.
Fig. 29. Outer portion of a series with seven plates; *a*, outermost tooth. Cam. luc. $\times 750$ diam.

Fig. 30. *Euplocamus japonicus*, Bergh.

- Fig. 30. Spicules of the skin. Cam. luc. $\times 200$ diam.
