

PLATE XL.

- |  |                     |
|--|---------------------|
| Fig. 1. <i>Hydlinæcia tubicola</i> , var., inverted in its tube (from Station 320), . . . . .                          | About natural size. |
| Fig. 2. Sixty-third foot of <i>Hyalinæcia tubicola</i> , var. <i>longibranchiata</i> , . . . . .                       | $\times 25.$        |
| Fig. 3. Anterior dorsal region of <i>Hyalinæcia benthaliana</i> , . . . . .  | Enlarged.           |
| Fig. 4. Anterior dorsal view of <i>Nothria minuta</i> , . . . . .  | Enlarged.           |
| Fig. 5. <i>Nothria sombreriana</i> , <sup>1</sup> in a hyaline tube strengthened with large sponge-spicules, . . . . . | Enlarged.           |
| Fig. 6. Anterior dorsal view of the same species. The tentacular cirri have been accidentally omitted, . . . . .       | Enlarged.           |
| Fig. 7. Twentieth foot of the foregoing, . . . . .   | $\times 25.$        |
| Fig. 8. Anterior dorsal aspect of <i>Nothria tenuisetis</i> , . . . . .  | Enlarged.           |
| Fig. 9. Thirtieth foot of the foregoing, . . . . .   | $\times 25.$        |
| Fig. 10. Tube of <i>Nothria abranchiata</i> , . . . . .  | About natural size. |
| Fig. 11. Head and anterior dorsal region of the same, . . . . .  | Enlarged.           |
| Fig. 12. Thirtieth foot of the foregoing, . . . . .  | $\times 25.$        |
| Fig. 13. <i>Nothria pycnabranchiata</i> , in tube, . . . . .   | Slightly enlarged.  |
| Fig. 14. Head and anterior region of the foregoing, . . . . .  | Enlarged.           |
| Fig. 15. Posterior foot of the foregoing, indifferently preserved, . . . . .   | $\times 25.$        |

<sup>1</sup> The artist has omitted the shading between the tentacles.
