

PLATE IXA.

- | | | |
|--|-----------|--------|
| Fig. 1. Dorsal bristles of <i>Polynoë platycirrata</i> , | | × 350. |
| Fig. 2. Dorsal bristle of <i>Lepidonotus gymnonotus</i> , | | × 90. |
| Fig. 3. Tip of average ventral bristle of the same, | | × 210. |
| Fig. 4. Dorsal bristle of <i>Polynoë capensis</i> , | | × 350. |
| Fig. 5. Ventral bristle of the same, | | × 350. |
| Fig. 6. Dorsal bristle of <i>Polynoë pustulata</i> , | | × 350. |
| Fig. 7. Tip of a ventral bristle of the same form, | | × 350. |
| Fig. 8. Attenuate dorsal bristle of <i>Polynoë (Langerhansia) euplectellæ</i> , | | × 350. |
| Fig. 9. Tip of average ventral bristle of the foregoing, | | × 210. |
| Fig. 10. Tip of a dorsal bristle of <i>Evarne tenuisetis</i> , | | × 350. |
| Fig. 11. Extremity of one of the superior ventral bristles of the same
species, | | × 350. |
| Fig. 12. Tip of an inferior ventral bristle of the same, | | × 350. |
| Fig. 13. Tip of dorsal bristle of <i>Lagisca magellanica</i> , var. <i>murrayi</i> , | | × 90. |
| Fig. 14. One of the short ventral bristles (from the middle of the series) of
the same, | | × 90. |
