

PLATE XXVIA.

- Fig. 1. Bifid bristle, from the third foot of *Nothria willemoesii*, × 350.
- Fig. 2. Bristle from the same foot, viewed antero-posteriorly, so as to exhibit the "wing," × 430.
- Fig. 3. Delicate brush-shaped bristle, from the posterior region of the foregoing, × 350.
- Fig. 4. Bifid hook, from the posterior region of the same, × 210.
- Fig. 5. Bifid bristle, from the first region of *Nothria ehlersi*, × 350.
- Fig. 6. Hook, from the posterior region of the same, × 210.
- Fig. 7. Brush-shaped bristle, from the twentieth foot of the foregoing, × 350.
- Fig. 8. Bifid bristle, from the first foot of *Nothria armandi*, × 350.
- Fig. 9. Brush-shaped bristle, from the twentieth foot of the same, × 350.
- Fig. 10. Hook, from the fiftieth foot of the foregoing, × 210.
- Fig. 11. One of the inner paleæ of *Sabellaria (Pallasia) capensis*, × about 40.
- Fig. 12. Hook of the same species (slightly turned), × 700.
- Fig. 13. Outer palea of the crown of *Sabellaria (Pallasia) australiensis*, × 90.
- Fig. 14. Tip of one of the inner paleæ of the same, × 90.
- Fig. 15. Hook of the foregoing, × 700.
- Fig. 16. Winged bristle, from the anterior region of *Petta assimilis*. The figure shows part of both wings, × 210.
- Fig. 17. Winged bristle of the same, with a delicate limb at the tip, × 210.
- Fig. 18. Strong hook-like caudal bristle from the foregoing, × 210.
- Fig. 19. Hook of the same form, × 700.
- Fig. 20. Paleola (of average size) of *Ampharete sombrieriana*, × 90.
- Fig. 21. Uncinus of the same, × 700.
- Fig. 22. Paleola from the middle of the group in *Ampharete kerguelensis*, × 114.
- Fig. 23. Tip of a paleola from a smaller specimen of the same species, showing the filiform tip and the wing-like process at the margin, × 700.
- Fig. 24. Hook of the same, × 700.
- Fig. 25. Hook of *Phyllocomus croceus*, × 350.
- Fig. 26. Bristle from the anterior region of *Amphicteis gunneri*, var. *atlantica*, × 55.
- Fig. 27. Hook of the same, × 700.
- Fig. 28. Hook of *Amphicteis gunneri*, from the Gulf of St. Lawrence, Canada, × 700.
- Fig. 29. Hook of *Amphicteis gunneri*, from Shetland, × 700.
