LITTORAL SPECIES.

I. THE SCANDINAVIAN REGION.

This region includes the whole of the Scandinavian Peninsula, Denmark, Holland, Iceland, and the northern half of the British Isles.

<i>Octopus vulgaris</i> (also III. IV. V. VI. VII. VIII. IX. X. XIII.).	<i>Sepia officinalis</i> (also IV. V. VI.).
† „ <i>piscatorum</i> (also A. II.).	<i>Loligo vulgaris</i> (also IV. V.).
† „ <i>arcticus</i> (also A. II. XVII.).	„ <i>forbesii</i> (also IV.).
† <i>Eledone cirrosa</i> (also IV. V.).	„ <i>breviceps</i> .
† <i>Sepiola rondeleti</i> (also IV. V. VI.).	„ <i>media</i> (also IV. V.).
„ <i>atlantica</i> (also XVII.).	<i>Ommastrephes pteropus</i> (also A. V.).
? <i>Rossia macrosoma</i> (also V. XVII.).	<i>Todarodes sagittatus</i> (also A. IV. V.).
† „ <i>oweni</i> .	<i>Illex coindetii</i> (also IV. V.).
† „ <i>glaucoptis</i> (also XVII.).	<i>Architeuthis monachus</i> (also A.).
	„ <i>dux</i> (also A.).

II. THE NEW ENGLAND REGION.

The northern boundary of this region I am unable to fix, probably it extends up to the coast of Labrador; southwards it extends about as far as Cape Hatteras.

<i>Stauroteuthis syrtensis</i> (also A.).	<i>Ocythoë tuberculata</i> (also V.).
<i>Opisthoteuthis agassizii</i> (also A. II.).	<i>Alloposus mollis</i> (also A.).
<i>Argonauta argo</i> (also A. C. IV. V. VII. IX. XI.).	<i>Octopus lentus</i> (also A.).
	„ <i>obesus</i> .
