

## PLATE I.

Fig. 1. Pelvis of a Scotsman, Howieson, in the Anatomical Museum of the University of Edinburgh.

Fig. 2. Pelvis of a male Australian from Manly Cove, New South Wales. E.U.A.M.

Fig. 3. Pelvis of a Sandwich Island woman from Oahu. The measurements of the skull of this woman are given in Table XI. of the Report on Human Crania, . 66. Challenger Collection, I.

Fig. 4. Pelvis of a Maori from Otago, New Zealand. E.U.A.M.

---

In this and the other plates the pelvis is represented with the anterior superior iliac spines and pubic spines in the same vertical plane. So far as possible, in the series of figures the pelves were reduced uniformly in size.
