

## Family VIII. H A I M E I D Æ.

*Haimea*, Milne-Edwards.

*Haimea funebris*, Milne-Edwards, was found off the coast of Algiers, not, as inadvertently mentioned by Hickson, at the Fiji Islands; *Haimea hyalina*, Koren and Danielssen, off Thronthjem.

*Hartea*, Perceval Wright.

*Hartea elegans*, Perc. Wright, was found off the coast of Donegal at Rathmullen, in Ireland.

*Monoxenia*, Haeckel.

*Monoxenia darwini*, Haeckel, a small colony of this species was found in the interior of a dead *Cidaris*, from the Red Sea. Hickson has already called attention to the peculiar geographical distribution of these "isolated Alcyonaria."
