

3. Seven names refer to young stages of the Thecosomata of the genus *Cavolinia*, viz.:—

Cleodora compressa, Souleyet = *Cavolinia trispinosa*.

Cleodora curvata, Souleyet = *Cavolinia uncinata*.

Clio depressa, Gray = *Cleodora compressa*, Souleyet = *Cavolinia trispinosa*.

Clio pellucidum, Gray = *Pleuropus pellucidus*, Eschscholtz = *Cavolinia inflexa*.

Balantium rugosum, Gray = *Hyalæa rugosa*, d'Orbigny = *Cavolinia gibbosa*.

Cleodora pygmæa, Boas = *Cavolinia quadridentata*.

Cleodora trifilis, Troschel = *Cavolinia*, sp.

The attentive study of the forms designated by the remaining specific titles shows that thirty-three of these ought to be discarded, and considered only as synonyms of the fourteen remaining species.
