For description and figures I refer to Souleyet, *Voyage de la Bonite*, *Zoologie*, t. ii. p. 205, pl. xii. The best figure of the complete shell is to be found in the *Spolia atlantica* of Boas, pl. iii. fig. 39.

*Habitat.*—Atlantic Ocean; from 43° 23' N. (Boas) to 40° S., both towards the New and Old Worlds. According to Souleyet, this species has been found towards Cape Horn, but this appears to me to require confirmation. The locality Spitzbergen, noted in the British Museum, is certainly erroneous.

Indian Ocean; from the Gulf of Bengal (British Museum) to 35° 30' S., from Africa (Zanzibar, the Cape, &c.) to Australia.

Pacific Ocean; western portion, China Sea (Boas), Malay Archipelago, east coast of Australia (Pfeffer and Angas); eastern portion, from 23° N. to 42° S. (Knocker).
