INTRODUCTION, . . . . .	1
ORGANISATION OF THE PTEROPODA, . . . . .	5
I. Thecosomata, . . . . .	5
A. Family I. Limacinidæ, . . . . .	5
B. Family II. Cavoliniidæ, . . . . .	12
C. Family III. Cymbuliidæ, . . . . .	21
D. Phylogenetic Relations of the Thecosomata among themselves, . . . . .	28
E. Summary on the Thecosomata, . . . . .	37
II. Gymnosomata, . . . . .	37
A. Family I. Pneumonodermatidæ, . . . . .	38
B. Family II. Clionopsidæ, . . . . .	45
C. Family III. Clionidæ, . . . . .	47
D. Family IV. Halopsychidæ, . . . . .	51
E. Summary on the Gymnosomata, . . . . .	55
III. Summary on the Pteropoda, . . . . .	56
AFFINITIES AND PHYLOGENETIC RELATIONSHIPS OF THE PTEROPODA, . . . . .	57
I. Historical, . . . . .	57
II. Are the Pteropoda Cephalopoda? . . . . .	60
III. Are the Pteropoda Gastropoda? . . . . .	75
IV. Special Affinities of the Thecosomata and Gymnosomata, . . . . .	77
A. Thecosomata, . . . . .	79
B. Gymnosomata, . . . . .	82
V. Do the Pteropoda constitute a Primitive or Derived Group? . . . . .	88
VI. Polyphyletic Origin of the Pteropoda, . . . . .	89
A. Origin of the Thecosomata, . . . . .	89
B. Origin of the Gymnosomata, . . . . .	94
VII. Summary, . . . . .	95
VIII. General Conclusions, . . . . .	95
