

Phrosina , Risso, 1822. ? from <i>Εὐφροσύνη</i> (cheerfulness), one of the Graces, Hesiod, Theogonia, 900. Costa says, "the name <i>Frosine</i> , assigned to this genus by Risso, is derived from the Latin word <i>Phrosine</i> , which means <i>cheerful</i> , according to Voss. The author chose this name with a view to the beautiful violet shot with gold, which adorns the pearly white of this Crustacean." Phrosine does not appear as a Latin word in ordinary lexicons,	{ 117, 127, 128, 137, 175, 190, 248 476, 487, 589
